Mangalore university (Jan 2021- Nov 2023)

PUC

RN Shetty Pre-University College (Mar 2018-Mar 2020)

SSLC

Niveditha High School Basrur (Mar 2017-Mar 2018)

PROJECT : [Hospital Management System](#)

This project is developed with the strength of three members with the time duration of Three months. Basically, it is a stand-alone application, here we use PHP as backend and the HTML, CSS, JavaScript for Frontend.

We developed this project to help in Hospitalized areas. With our project the hospital Admin, Doctors and the Patients can maintain their records, patients can book their appointment with specific specialization and Doctor. Doctors can manage his/her appointment and also prescribe medicine for their patient. Admin can monitor and control all these activities.

In our Hospital Management project, I have worked on User Interface that's developed through HTML, CSS and javaScript, used to help the user to interact with our software. I also handled server-side coding with technology like PHP as back end. Besides I also make some of the documents of the project

TECHNICAL SKILLS

- C
- C++
- JAVA
- PYTHON
- HTML and CSS
- PHP
- Basic in cloud computing and virtualization
- Basic in VB.Net and ASP.Net
- MySQL

ACHIEVEMENTS

Participated in BHARATH SEVADALcamp

LANGUAGES

- Kannada
- English
- Hindi

SOFT SKILLS

- Time management
- leadership skills
- Communication skills
- Active listener
- Problem solving
